

BSTROJANHR

1/4" Twin Hose 100' Hand Crank Hose Reel

Features

- Upgrade your welding setup with our state-of-the-art hose reel. Designed for oxy-fuel twin hose, it offers unrivaled convenience and ease of use.
- Our hose reel is compatible with a wide range of welding setups, making it a versatile addition to your equipment.
- Effortlessly extend and retract your hoses, saving you time and energy during setup and cleanup.
- Reduce the risk of hose damage and potential accidents. Our hose reel provides a secure and protected storage solution, keeping your hoses in optimal condition.
- Mounting screws included in package.
- Replacement Mounting Screws: BSTROJANMS
- Replacement O-Rings: BSTROJANORR
- Replacement Handles: BSTROJANHDL

Applications

- Welding
- Automotive Maintenance
- Pipelines
- Construction

Technical Specifications

- **Max Hose Width:** 1/4"
- **Max Hose Length:** 100'
- **PSI Rating:** 300 PSI
- **Bursting Pressure:** 900 PSI
- **Material:** Corrosion Resistant Powder Coated Steel
- **Color:** Black
- **Weight:** 8.93 lbs
- **Packaging:** 1 Reel
- **Country of origin:** China

Usage Instructions

- Ensure the hose reel is secured on a flat, stable surface before using.
- Route hose through hole, securing the hose nozzles to the connector.
- Wind the hose reel until the desired length of hose is free, and secure the locking pin in place, ensuring the hose reel does not spin while in use.
