

SS45039

6" Grinding Wheel

Features

- Zirconia grain is sharper, faster, and longer lasting than aluminum oxide grain
- T-grade bond offers fast cutting and longer life
- Manufactured with Metal Threaded Hub
- For use with an angle grinder
- Offers a maximum of 10200 RPM

Applications

- Grinding
- Weld cleaning
- Paint removal
- Smoothing

Technical Specifications

- **Material:** Zirconia Aluminum Oxide
- **Color:** Black
- **Bore/Trim:** 7/8"
- **Type:** 27
- **Thickness:** 1/4"
- **Hardness:** T
- **Packaging:** 25 per Box
- **Country of origin:** China

Usage Instructions

- Attach wheel to grinder and tighten nut until secure.
- Continuously grind on the target surface to clean or remove unwanted materials.
